#### Thank you from our graduated guide dog users

*"Having a guide dog means confidence, independent mobility, as well as having a cute sidekick to experience life with. My guide dog helps me in daily life by getting me to and from work safely which includes bus travel multiple times, navigating busy transit terminal areas and walking. My guide helps me find the elevator button and gets me in the right elevator and to my office. In the regular commute we have to navigate obstacles and curbs, so I don't trip or run into people or other objects."*
